Final-year Data Science and AI engineering student at ENSA Fez, specializing in NLP and Data Engineering. Passionate about building LLM solutions, RAG architectures, and real-time data processing pipelines. Actively seeking an end-of-studies internship (PFE).

EDUCATION

2024 – Present — **Engineering Degree in Data Science & AI**
National School of Applied Sciences (ENSA) — *Fez, Morocco*

2022 – 2024 — **Integrated Preparatory Cycle**
National School of Applied Sciences (ENSA) — *Fez, Morocco*

2022 — **High School Diploma in Physical Sciences**
Lycée Moulay Rachid — *Fez, Morocco*

PROFESSIONAL EXPERIENCE

July – August 2026 — **Data Engineering, BI & AI Intern**
Acacia Afrique Système — *Morocco*

Projects: Sage Decision Support System & Multi-Agent System (MAS).

- **BI & Data Warehouse:** Data exploration on **SQL Server** (Sage ERP), ETL pipelines via **Apache Hop**, and interactive **Power BI** dashboards.
- **Multi-Agent System:** Simulated a virtual enterprise environment using **CrewAI** (CEO, BI, HR, Support roles).
- **AI & RAG:** Integrated **Ollama** models (Text/Vision) into a **RAG** framework for corporate document intelligence.

July – August 2025 — **AI & NLP Developer Intern**
AriMayi — *France*

Project: Multilingual Intelligent Conversational Assistant (FR/EN/AR).

- Designed core chatbot logic with **Rasa** and **FastAPI**, featuring a **fallback LLM (Llama 3/Ollama)**.
- Handled data persistence and data sovereignty using **SQLite** knowledge bases.
- Deployed the solution onto the production platform via **GitHub**.

PROJECTS

Olist E-commerce Platform (Ongoing) — *Data Engineering & AI*

- E-commerce data storage on **Amazon S3**, ingestion into **Snowflake**, and advanced analytics transformations / dimensional modeling via **dbt** (**RAW/STAGING/MARTS**).
- Pipeline orchestration via **Apache Airflow**, **Power BI** dashboards, and a **NLP/ML** layer for customer review classification and automatic dissatisfaction detection.

RealTime-Aero-Maintenance — *Data Engineering & Machine Learning*

- Real-time data streaming via **Apache Kafka**, storage on **Hadoop HDFS**, and containerization with **Docker**.
- Machine Learning architecture (**CatBoost/SVR**) for RUL prediction with real-time tracking via **Chart.js**.

Enterprise Knowledge Brain — *RAG & Natural Language Processing (NLP)*

- Built a **RAG** assistant (Llama 3) with **Tesseract OCR** and semantic indexing in **ChromaDB**.
- Orchestrated complex workflows using **LangChain** and deployed a user-friendly **Streamlit** interface.

Decision Support System (SNCF) — *Data Engineering & BI*

- Designed a star-schema **Data Warehouse** and automated **ETL** workflows via **Talend Open Studio**.
- Conducted multidimensional analysis with **OLAP cubes (SSAS)** and analytical dashboards in **Power BI**.

TECHNICAL SKILLS

- **AI, NLP & Vision:** ML, Deep Learning, RAG, LangChain, CrewAI, Rasa, Ollama, Computer Vision, Recommendation Systems, Tesseract (OCR).
- **Big Data & Engineering:** Spark, Kafka, Airflow, Hadoop, dbt, Talend.
- **MLOps, Cloud & DevOps:** MLflow, AWS, Docker, Git/GitHub, CI/CD.
- **Languages & Databases:** Python (Pandas, Scikit-learn, TensorFlow), SQL, Snowflake, SQL Server, MySQL.
- **Frameworks & BI:** FastAPI, Streamlit, Power BI, Tableau, Chart.js, Figma (UX/UI).

CERTIFICATIONS

- **Cloud & LLMs:** AWS Cloud Practitioner Essentials (In progress) | LangChain: Developing LLM Applications (DataCamp, 2026)
- **Data & ML:** Machine Learning with Python (IBM/Cognitive Class, 2026) | SQL Programming & Database Design (Oracle, 2024)

LANGUAGES & SOFT SKILLS

Languages

- **Arabic:** Native | **French:** Fluent
- **English:** Professional / Technical

Soft Skills

- Problem Solving | Curiosity for AI
- Teamwork | Analytical Mindset
